COMMERCIAL NEWS.

Kennedy, Eckert & Co.'s Circular.

CINCINNATI, October 7.—The market during the past week has seen some 'ups and downs." Early in the wiek, the speculators who had loaded up were anxious to get out even at a loss, and the market gave way ½ to ½ con bulk meats and bacou. Short seliers and consumers took advantage of the same and bought freely, and all the decline was recovered, and at the close holders were insisting on a further advance, but buyers were not disposed to follow it up, but on the contrary are holding off, as the offerings for next week a e more liberal. The advance was mostly on bacin, and the, stock of fresh smoked being light, holders had tief own way. There is considerable old pack dibaton stored here, which must soon find a market, as our slaughterers are all ready, waiting for a cold spell to commence operations, and fifteen to twenty days old meat will then have the call. Consumers have bought liberally, but the tightness of the money market in their section has retarded their purohases to a great extent, taking small lots at a time, but pretty free. The reports from all sections of the country report plenty of hogs, and good ones, and prices are likely to rule low, the farmer and drover having accepted the situation. It is estimated that the final result of the next packing season will show the packing in the West to be 5,000,000 head; but this is only on paper, and can only be decided when the noses are counted. At any rare, there will be enough for all purposes They are selling spot at \$44.50, gross, and for November \$4.25. December will not command over \$4. Exports.
